VI. INFERTILITY REFERRALS

provide lodging, transportation and meals for those traveling to obtain counseling.

Most OB/GYN practitioners do initial infertility workups.

An estimate of cost in 2001:

Consultation	\$150-175.00 includes ultrasound
Reversal of tubal ligation	\$4872-\$6000.00
Hysterosalpingogram (HSG)	\$150.00 (Hospital Extra)
InVitroFertilization (IVF)	\$\$4779-\$5500 (plus medications - \$1500.00)

It is important to let indigent clients know these costs. Medicaid does cover some infertility testing.

Medical insurance companies have various coverage and many different reimbursement levels.

Infertility specialists are generally located in Albuquerque. For local resources, you may check with client's OB/GYN.
